BCTF Mission - To aggressively investigate crimes committed via computers including:

- Cyber Terrorism
- Online Child Exploitation
- Network Intrusions
- Internet Fraud
- Theft of Proprietary Information
- Software Piracy
- Cyber Attacks such as:
 - Denial of Service
 - Viruses

WNY Regional Computer Forensic Laboratory

- On October 8, 2003, FBI Director Robert Mueller announced the establishment of five new Regional Computer Forensic Labs, one of which will be located here in Buffalo. An RCFL is a single service forensic laboratory devoted entirely to the examination of computer evidence of criminal investigations. The grand opening for this state of the art facility is August, 2004.

Cyber SWAT - A component of the BCTF is a technical team experienced in identifying the source of computer intrusions and denial of service attacks in real time. These specially trained investigators assist both law enforcement and private industry.

INFRAGARD - The FBI, in conjunction with representatives from private industry, the academic community, and the public sector, share information about cyber intrusions, exploited vulnerabilities, and infrastructure threats. For more information, visit www.infragard.gov.

For online fraud cases with under \$5,000 loss, please file an online complaint with our partners, the Internet Fraud Complaint Center at www.ifccfbi.gov
